We would like to remind patrons that vehicles are to be driven on public roadways only, and parked in appropriate parking areas. Absolutely NO vehicles are to be driven or parked on the grass, except when a specific area is designated as an additional parking area. The "responsible person" for each pavilion party is responsible for ensuring that all parking rules are adhered to by members of his or her group. The Park Attendant on duty will ask that any cars parked inappropriately be moved - please give him/her your support.

Absolutely **NO** cars may be driven or parked on the grass next to this pavilion.
